THINKING TODAY FOR A SECURE TOMORROW

A LEGACY
THAT DATES BACK TO OVER THREE DECADES.

THE TRUST
THAT HAS WITHSTOOD THE TEST OF TIME.

THE AMBITION
THAT DRIVES US INTO THE FUTURE.

THAT'S WHAT DEFINES WHO WE ARE AT SECU

The company has earned its stature in security and military fields under the thoughtful leadership of our Chairman of the Board RET.M.G. **BANDAR A. ELMOISHEER** spanning over 35 years. Since the time of inception, in Sakaka, Al Jouf, and Riyadh, **SECU** has always been in touch with the latest in technology, and a professional security company providing a full range of security solutions in the Kingdom of Saudi Arabia. Today, as the world is witnessing disruption across industries and sectors, the need for security becomes more important than ever.

VISION AND MISSION

ALL OUR EFFORTS REFLECT ONE COMMON GOAL, TO ENHANCE THE QUALITY OF LIVES, BY PROVIDING A SAFE AND SECURE ENVIRONMENT.

Our vision is to provide excellent service for military and security systems and deliver high-quality products through our vast experience in these two fields that spans more than 35 years, thereby becoming a leading name in the industry.

We constantly aim to create long term professional relationships with our clients and continue to embrace transformations in the security and military landscape.

OUR FOCUS

WITH A CLEAR FOCUS ON SERVING MODERN-DAY SECURITY REQUIREMENTS

We have devised a range of comprehensive security solutions for government and military facilities, public and private properties, ministries, agencies, presidencies, factories, hospitals, universities, institutions, schools, hotels, & houses.

SOLUTION-CENTRIC APPROACH

We start with the problem discovery process and after studying the current capabilities, we provide the most viable solution that aligns perfectly with the client requirements. Our team of seasoned professionals have many years of experience in understanding problem areas and designing solutions that fit just right.

OUR SERVICES:
A CUT ABOVE THE REST

EVENT AND CORPORATE

We protect and enable national and international clients in their event and corporate functions. We have vast experience ranging from sporting and cultural “Mega Events” to executive protection of corporate leaders or high-profile celebrities.

RESILIENCE

We have the ability to anticipate and address strategic and operational risks, coordinate and integrate management responses, and understand our environment and partners to achieve the best security solutions.

CONSULTING

We offer a wide range of consultancy and advisory services in addition to our operations. We can deploy multi-disciplinary teams of Saudi and international experts to meet the full range of client requirements.

BUSINESS INTELLIGENCE

We offer a range of world-class business intelligence services, with the most effective technology and methods, and a highly-qualified and experienced team of Saudi and international experts.

DEFENSE

We support defense clients in logistics, procurement, training, and development of global standard equipment and materiel.

SECU Global Risk Solutions collaborates with architects, system designers, and technology suppliers to ensure that implemented technical solutions remain practical, easy to operate, and effective in minimizing risks and securing people, assets, and data.

CONSULTING

MEETING THE SECURITY CHALLENGES OF A CHANGING WORLD

CONSULTING

ENSURING SAFETY THROUGH CPTED PLANNING

- Designing smart security requirements for towns and cities.
- Security risk analysis.
- Threat & vulnerability assessment.
- Collaborating with designers in the design & development phase.
- Conducting CPTED assessments & providing recommendations that complement the fabric of the society.
- Providing balance solutions, enabling a safe & secure environment without disturbing daily activities.

PROTECTION AT CROWDED AREAS

- Identifying vehicle-borne threats.
- Planning for vehicle-related threat management.
- Threat and risk analysis.
- Safety and security assessments.
- Emergency management and response planning.
- Crowd control and security planning.
- Establishing a security management framework.

DEFENSIVE SECURITY RISK MANAGEMENT

- Training on responding to security threats.
- Security guarding services.
- Exclusive personal protection.
- Escorting VIPs .

FIRST RESPONSE MANAGEMENT PLANNING

- Planning for rapid response management.
- Planning the management of initial emergency response.
- Immediate response management plans.
- Emergency and crisis evacuation plans.

TRAINING

TRAINING SOLUTIONS

With a surge in violent crime, terrorism, anti-social behavior and racial and sexual harassment, it is important to be aware of the potential dangers that we face in our everyday lives and when travelling or working in regions of high-risk.

TRAVEL SAFETY & SECURITY AWARENESS

This workshop provides practical advice on Travel Safety & Security Awareness.

HOSTILE ENVIRONMENT AWARENESS

In this workshop, we equip participants who have to travel and work in hostile environments with critical hard and soft skills required to stay safe.

MITIGATING THE RISKS OF ATTACKS AND INTRUSIONS

Mitigating attacks and intrusions involves applying advanced security measures, strengthening surveillance, enforcing strict protocols, and using early detection, to protect systems and sites and reduce the risk of breaches.

CONFLICT MANAGEMENT

We conduct workshops to train participants on effectively and safely responding to verbal and physical assaults.

ARMED ASSAULT INCIDENT

This workshop addresses the growing threat of active shooter incidents, which have increased significantly in recent years. Participants will learn strategies to respond effectively to these unpredictable and fast-moving situations, gaining practical skills to act decisively and ensure safety during sudden attacks.

KIDNAPPING RISK REDUCTION

This workshop focuses on the threat of kidnapping for ransom, which affects many regions worldwide. Participants will gain practical knowledge on risk assessment, prevention strategies, and effective response measures to protect themselves and others in high-risk situations.

BENEFITS TO OUR CLIENTS

Knowledge Transfer: Our instructors provide interactive, hands-on training through lectures, real-life scenarios and role-playing.
Bespoke Solutions: We design and develop educational workshops for security professionals and non professionals alike.
Effective Delivery: Our role is to facilitate the necessary learning and behavioral shifts that enable people to take greater responsibility for their own security and in so doing also protect the interests of their business.

DEFENSE

Secu specializes in supplying all demands that serve the military and security fields.

The company exerts all efforts in its capacity as a main contractor or sub-contractor to serve Its customers by providing superior technical quality, efficient planning and precise timelines to execute projects
through the application of latest technologies and styles.

GUARDING MILITARY AND SECURITY FIELDS

DEFENSE

Our mission is to provide comprehensive security solutions for military facilities, public and private properties, ministries, agencies, presidencies, factories, hospitals, universities, institutions, schools, hotels and houses.

The Security Operations Company is capable of providing state-of-the-art weapons and ammunition, reflecting extensive experience in research, testing, and product selection.

The company has wide relationships with factories producing all types of bullets inside and outside European countries such as South Africa, Brazil and America. With experiences of modern technologies from abroad into the Kingdom of Saudi Arabia through our relationships with international companies specialized in different fields of military and security systems.

The company also aims at providing devices that serve this field through latest systems in conformity with the Vision 2030 of our country. With over 35 years of experience in the field, we are today poised to deliver exceptional solutions in safeguarding the nation’s safety and security.

DEFENSE

SENSORS

Detecting threats is the first step to countering them.
Our sea, ground and space-based sensors offer a multi-pronged approach to efficiently identify, categorize and track such threats across regions.

INTERCEPTORS

We can provide interception systems to counter any threats.

LAND-BASED SENSORS

Our land-based sensors prevent missile attacks by detecting launches, thus accurately providing protection where it's urgently required.

COMMAND AND CONTROL

Lucidity and precision are of utmost importance when it comes to missile defense missions. We specialize in combining multiple systems which then function as a synergistic whole.

SPACE-BASED SENSORS

State-of-the-art space-based sensors provide crucial information to commanders from different orbits to rapidly implement missile warning and defense missions.

SEA-BASED SENSORS

We supply advanced systems and equipment to safeguard facilities by precisely locating, detecting, and tracking ballistic missiles.

AIR AND MISSILE DEFENSE SYSTEMS

As risks evolve, so do our solutions. These adaptable systems consist of radars, command and control technology & interceptors which guard against a full spectrum of threats.

T

TECH

PREPARE TODAY FOR THREATS OF TOMORROW USING THE LATEST IN SEURITY TECHNOLOCAL ADVANCES

TECH

EXPERTS ON DEMAND
